### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance. The prior art made of record in the attached form PTO-892 considered to be pertinent to the submitted application.

Iwaji et al. US# 6,690,137 teach in Fig. 1 and 7, a synchronous motor 5 control wherein an axis error estimator 21 is provided, having an output based on input from Iq estimator 9. Wherein the axis error estimator 21 estimates and computes the error between the magnetic pole axis in the motor and the magnetic pole axis in the controller.

Kojima et al. US # 5,796,228 teach control of synchronous motor, wherein the control system increases an accuracy in installing a position detector on the synchronous motor and automatically calculates a phase correction. Wherein current and drive voltage of the synchronous motor are measured to calculate a phase correction value between a biaxial coordinate axis based upon. Wherein the phase correction setting control unit 49, shown in Fig. 1 and 2.

However, none of the prior art teaches or suggest in combination:

- A second step for estimating axial displacement caused in the motor by a control response angular frequency in the frequency arithmetic unit as a second axial displacement signal, and
- A third step for inputting a third axial displacement signal acquired by adding the first and second axial displacement signals to the frequency arithmetic unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rita Leykin whose telephone number is (571)272-2066. The examiner can normally be reached on Monday-Friday 8:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on (571)272-2107. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
